# Your collective health insurance with Aevitae

Dear partner,

The health insurance season is approaching, and soon everyone will once again be asking themselves: which health insurance plan is the best fit for me and my (family) situation?

Your colleagues have an especially attractive option, your collective health insurance plan. That is great news for both your colleagues and your company, because a collective health insurance plan from Aevitae comes with many benefits.

In this presentation, you will find a brief overview of the campaign and the available materials we have prepared to help convince as many colleagues as possible to take advantage of your collective health insurance offer.

Kind regards,

Aevitae

# The benefits for your collective

- The more employees who participate, the better we can contribute to their vitality and employability:
  - Less absenteeism
  - Increased productivity
  - More satisfied employees
- We can also help by offering:
  - Free waiting list mediation when employees face long waiting times. On average, we reduce the waiting period by 15 weeks.
  - The extensive services of Royal Doctors for your employees. In addition, it is possible to request a fast Second Opinion if there are doubts or a need for extra certainty regarding a diagnosis or treatment plan.
- Additionally, a collective health insurance plan is an attractive employee benefit - even better when many employees can enjoy it!
