

## Cover overview 2026

### Laef! Dental insurance

This cover overview is intended to easily show which types of reimbursements are included in an insurance policy. The overview provides a general description of healthcare services. No rights can be derived from this. Additional terms for reimbursement may be included in the policy conditions. There may also be limitations on reimbursement, for example, in the case of a non-contracted healthcare provider.

For a complete overview, we recommend reading the policy terms and conditions carefully, as they always take precedence. You can find them and other information in your personal online account.
